OHV RIDING AND CAMPING AREAS CLOSED EFFECTIVE IMMEDIATELY

As of April 9, 2020, the City of California City has closed all of our OHV riding and camping areas until further notice. This closure is due to the COVID-19 pandemic. At this time, we are asking that our OHV community uphold the California Stay Home orders. This closure will minimize spread of virus and the impact on our city's first responders. These are difficult times for everyone and our department would like thank you all in advance for keeping these mandates. Thank you for your continued support to our community and we look forward to seeing you all back when we re-open.

Please visit California City's website and OHV department social media accounts for updates.
